rCloud

Overview

rCloud provides an innovative cloud platform that meets the business continuity needs of small and medium-sized businesses. rCloud is the only cloud recovery solution that replicates and recovers both physical and virtual machines for Dell AppAssure, StorageCraft and VMware vSphere production environments.

With rCloud, entire production installations can be restored simultaneously, recovering single virtual servers in as little as fifteen minutes. rCloud's simple online web portal lets one instantly verify that production servers are replicated in the cloud, and ready to be restored in the event of an outage, on premise failure or disaster.
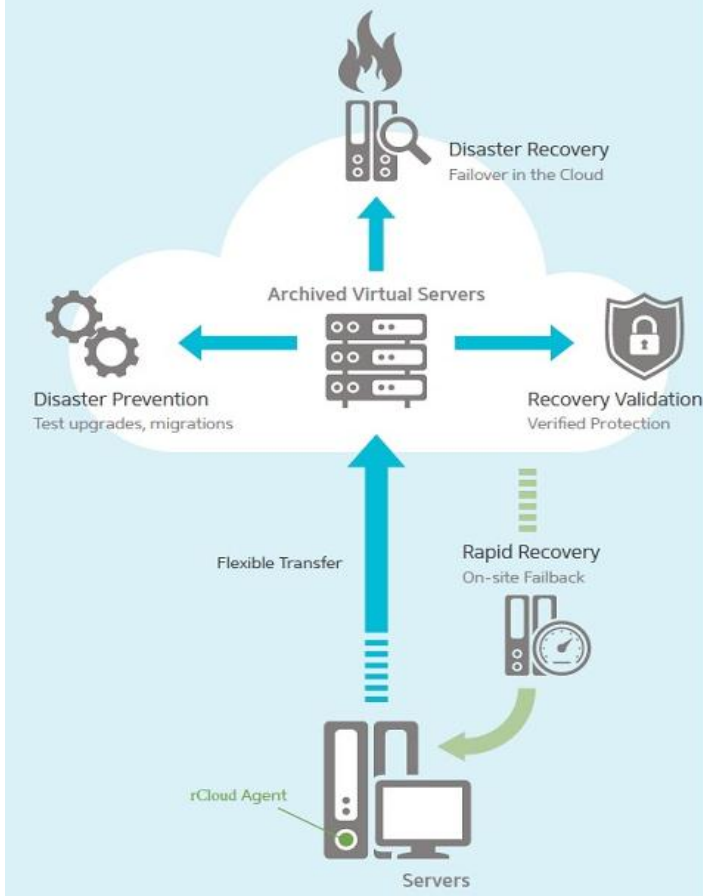

Key Features

- Universal architecture enabling integration with various on premise backup solutions
- Instant recovery in rCloud in less than 15 minutes in the event of a disaster
- Secure, fenced-in virtual lab allows users to test software updates in a separate test environment prior to deploying these updates to the production environment
- No need to change current operating procedures and add additional appliances

Key Benefits

- Predicable monthly pricing based on usage inclusive of US based support, disk seeding, and virtual lab testing.
- Seamless continuity of operations when restoring failover servers
- Replicates production network using the virtual networking feature of Virtual Lab to test failover networking before disaster strikes
- Simultaneous recovery for multiple servers so that you can restore your production environment with minimal downtime

How rCloud works

Technical Requirements

Operating Systems

- **Windows Server 2003**
- **Windows Server 2003 R2**
- **Windows Server 2008**
- **Windows Server 2008 R2**
- **Windows Server 2012**
- **Windows SBS 2003**
- **Windows SBS 2008**
- **Windows SBS 2011**

*rCloud supports both 32-bit and 64-bit versions of all four Windows Server releases listed above.

Physical & Virtual Environments

- Dell AppAssure
- Storage Craft
- VMware vSphere

Optional PSA/RMM integration

- ConnectWise

About Persistent Systems

Persistent Systems (BSE & NSE: PERSISTENT) is a global company specializing in software product and technology services. For over two decades, Persistent has consistently been selected as the trusted innovation partner for the world's largest technology brands, leading enterprises and pioneering start-ups. Persistent has a global team of more than 7,000 employees worldwide including offices and delivery centers in North America, Europe, and Asia. Persistent develops best-in-class solutions in key next-generation technology areas including Analytics, Big Data, Cloud Computing, Mobility and Social, for the telecommunications, life sciences, healthcare, and banking & financial services verticals.
